Colorado is short over 100,000 housing units despite help from construction surge, slow population growth

State deficit has fallen by 26,000 units since 2019, group finds.

Housing Deficit

Change in Household Population and Housing Units

- Great Recession hit construction & finance, stalling housing supply.
- Post-2018: Housing construction rebounds to 40 thousands units per year.
- Population growth slowing, bridging housing deficit.

Legislative Action

Production as Focus

"In Colorado, we say 'yes!' To more housing! "Yes" to unlocking prosperity! 'Yes' to opportunity for Coloradans at every budget!

To narrow the gap between supply and demand, we must continue to expand choices, speed up timelines, and reduce costs for new housing to come on the market."

~Governor Jared Polis, State of the State January 9, 2025

Housing Colorado

What is DRCOG?

The Denver Regional Council of Governments is a planning organization where local governments collaborate to establish guidelines, set policy and allocate funding in the areas of **transportation** and **personal mobility**, growth and **development**, and aging and disability resources.

Housing in Metro Vision

The Denver Regional Council of Governments is a planning organization where local governments collaborate to establish guidelines, set policy and allocate funding in the areas of **transportation** and **personal mobility**, growth and **development**, and aging and disability resources.

Need for Regional Coordination

- Housing markets are regional.
- People make choices about where to live based on factors that cross jurisdictional boundaries.
 - Jobs.
 - Affordability.
 - Schools.
 - Amenities.
 - Childcare.
 - More

Need for Regional Coordination (continued)

- To understand and proactively address housing dynamics that are:
 - Systemic.
 - Cross-sector.
 - Cross-jurisdictional.
- Beyond just town-, city- or county-level

Regional Housing Needs Assessment

Denver Regional Council of Governments FINAL

Prepared for: Denver Regional Council of Governments (DRCOG)

ECOnorthwest 222 SW Columbia Street • Suite 1600 • Portland, OR 97201 • 503-222-6060

1. Data analysis:

• Identified gaps in housing supply and affordability across income levels and household types.

2. Barriers analysis:

• Collaborated to identify barriers to housing development.

3. Strategy framework:

Outlined direction to move toward a regional strategy.

Summary of key findings

- Despite periodic building booms, the **region has not produced enough housing to keep pace** with population and job growth.
- Low-income households (below 60% Area Median Income) represent the greatest need for additional housing.
- Aging population and smaller household trends will require more diverse housing types.
- Housing types and affordability are unevenly distributed across the region.

Littleton Housing Landscape

Housing Type

Littleton's Inclusionary Housing Ordinance

- Recognizes need for housing across all income levels
- Designed to generate affordable units from the development pipeline

Structure

- November 1, 2022
- 5% of units for projects 5 units and over must be affordable
- Lowest percentage requirement, highest fee in lieu
- 60-100% AMI levels

Results

- Working as designed
- 123 affordable units anticipated
- \$5.6M fee in lieu
- Positive feedback

Discussion

- How does data influence decision making? Does the number matter?
- Can we build our way out?
- How do we overcome barriers with infrastructure?
- Rent vs. Own OR deed restricted vs. free market
